Volume 26 Issue 4  
4th Quarter 2021

A few weeks ago, I was visiting family and had the opportunity to fish a local lake for a few hours. I spent a couple hours in the morning fly fishing by myself with some success. I caught some nice largemouth bass and had a good time.

My niece, Maia lives close to the lake and had fished it a few times before, without a lot of action. The tricks I learned that morning, I was able to share with Maia. We went out fishing that evening, she crushed it and had a great time. As I reflect on that day, I realize that what I was able to achieve in the morning by myself has little meaning compared to watching little Maia learn a new skill and feel the pure joy and excitement of fighting a fish, bringing it ashore and gently releasing it back into the water.

As a Christian, as a business owner, as a leader, my job is to help others flourish.....to help people find meaning and purpose in their work and in their lives. My personal success has little meaning, if those around me do not find their purpose and succeed.

## COVID-19 Booster

*Please review the information below. We are essential workers and do conduct Covid cleans, therefore you should all be eligible to get the booster if you meet the other booster criteria:*

10/21/21, CDC Director Rochelle P. Walensky, M.D., M.P.H., endorsed the CDC Advisory Committee on Immunization Practices' (ACIP) recommendation for a booster shot of COVID-19 vaccines in certain populations. The Food and Drug Administration's (FDA) authorization and CDC's recommendation for use are important steps forward as we work to stay ahead of the virus and keep Americans safe.

For individuals who received a Pfizer-BioNTech or Moderna COVID-19 vaccine, the following groups are eligible for a booster shot at 6 months or more after their initial series:

- 65 years and older
- Age 18+ who live in long-term care settings
- Age 18+ who have underlying medical conditions
- Age 18+ who work or live in high-risk settings

For the nearly 15 million people who got the Johnson & Johnson COVID-19 vaccine, booster shots are also recommended for those who are 18 and older and who were vaccinated two or more months ago.

There are now booster recommendations for all three available COVID-19 vaccines in the United States. Eligible individuals may choose which vaccine they receive as a booster dose. Some people may have a preference for the vaccine type that they originally received, and others may prefer to get a different booster. CDC's recommendations now allow for this type of mix and match dosing for booster shots.
